## FORMER HEAD OF GUARD HERE HELD

Indiana State  
William B. Brann Released on Bond  
Following Arrest on Grand Jury  
Indictment

### IS FOUND IN CINCINNATI

Charged With Maintaining Common  
Nuisance at Armory And With  
Sale of Liquor

William B. Brann, former captain  
of Company C, the Rushville National  
guard unit that was mustered out  
of service several months ago be-  
cause of alleged irregularities, was  
today under \$3,000 bond in the Rush  
circuit court on a grand jury indict-  
ment.

The indictment was returned dur-  
ing the February session of the grand  
jury, and the charge is maintaining  
and assisting in the maintenance of  
a common nuisance. The indictment  
is in two counts.

The first count charges the de-  
fendant with keeping a house, club  
room and gathering place known as  
the army for the guard unit, and  
maintained the place for other pur-  
poses than governmental business.  
The count alleges that he permitted  
men to gather and drink intoxicat-  
ing liquors, and he is charged with  
keeping "the place where liquor was  
sold and delivered in violation of the  
state laws."

The second count of the indict-  
ment charges that on or about De-  
cember 23, 1923, the defendant sold  
to Raymond Finney, one of the  
guardsmen, a quart of whiskey for  
the price of two dollars.

Brann was arrested Wednesday  
afternoon on the streets in Cincin-  
nati by Ed Spradling, deputy sheriff.  
The local officers had been notified  
that the defendant was in that city,  
or at Latonia attending the races.

When the grand jury investigated  
the alleged transactions here, it is  
said that Captain Brann disappeared  
and his whereabouts were unknown  
until recently.

Officer Spradling went to the races  
at Latonia Tuesday, but failed to  
locate him on the grounds and he  
remained over in Cincinnati Wednes-  
day, and while walking along Vine  
street, met him, and Mr. Brann con-  
sented to accompany him here with-  
out the requisition papers.

He was arraigned before Judge  
Sparks and entered a plea of "not  
guilty, and bond in the sum of \$3,000  
was provided for his appearance lat-  
er.

## MRS. SAREPTA COCHRAN IS DEAD AT HOME HERE

Deceased Was a Sister of the Late  
George H. Puntenev and Last  
Member of Family

### BORN IN FAYETTE COUNTY

Mrs. Sarepta Cochran, a sister of  
the late George H. Puntenev, died  
this morning about two o'clock at  
her home, 1029 North Benjamin  
street, death resulting from infir-  
mities with advanced age.

The deceased was born February  
11, 1839, in Fayette county, and was  
past 85 years of age. She was the  
last surviving member of that branch  
of the Puntenev family. Her hus-  
band died several years ago, and  
since then she has been making her  
home with John Little and his sis-  
ter, Maggie Little, at whose home she  
died.

The direct survivors are two nep-  
hews and a niece, J. A. Gleason of  
Tipton and George H. Puntenev of  
St. Petersburg, Fla., and Mrs. Har-  
ry Kramer of this city.

Funeral services will be held Sat-  
urday morning at ten o'clock at the  
late residence in charge of the Rev.  
E. G. McKibbin and burial will be  
made in the Presbyterian church  
cemetery at Glenwood.

### FLYERS ON LAST LEG

Cloverdale, Sana Monica, Calif.,

world flyers took off here at 10:32 a.  
m. for San Francisco, "double  
tracking" the portion of their air  
trail from here to Seattle.

## ENOUGH FOR 6,900 BUSHELS

Copper Carbonate Sold to Treat  
Wheat for Stinking Smut

Library +  
Copper carbonate has been  
sold by Rushville drug stores to  
treat 6,900 bushels of wheat for  
stinking smut, according to Herschel  
VanMatre, county agricultural agent,  
who checked up today on the way  
farmers had acted upon the sugges-  
tion that this solution be used to get  
rid of his trouble in seed wheat.

Counting two bushels of seed to  
the acre, enough has been treated  
for stinking smut to plant about 3,  
500 acres of wheat.

This indicates that farmers are  
very favorably impressed with this  
treatment, Mr. VanMatre believes.

The local supply of copper carbonate  
is about exhausted.

## BOYS' CORN CLUB BEING ORGANIZED

Fifty Bushels Of Seed, Third Of a  
Bushel To Each Club Member,  
Will Be Distributed

### TO BE MADE SELF SUSTAINING

Boys Will Be Paid For Part Of Corn  
They Raise And It Will Be Sold  
As Seed

Preparations are being made to  
organize a Boy's Corn Club in con-  
nection with the Rush County Corn  
Show, as a means of stimulating the  
interest of boys on Rush county  
farms in the growing of better corn  
and the producing of larger yields.

The first announcement regard-  
ing the proposed corn show, which  
will be held January 6, 7 and 8 of  
next year, was made Wednesday and  
committees were appointed to take  
charge of the different features of  
the show. There is a committee of  
three representing each township.

The Boys' Corn Club, according  
to present plans, will be built on a  
firm foundation that will insure its  
continuance for years to come be-  
cause boys will be inspired to go in-  
to the project, not alone for finan-  
cial gain, but because they will be  
helping other boys coming on to  
profit from the work of the club.

It is proposed to start the club  
with a nucleus of fifty bushels of a  
pure strain of Reid's Yellow Dent  
for seed and each boy joining the  
club will be given one-third of a  
bushel for seed purposes. This will  
limit the club the first year to 150  
boys.

Every boy who joins the club will  
be required to sign a pledge agreeing  
to return one bushel of the corn he  
raises to the club at the time of the  
annual corn show. Five or more pre-  
miums will be offered for the out-  
standing bushel of corn grown by  
club members.

It is hoped to give each boy one  
dollar in premium who does not win  
a prize on his bushel of corn.

All surplus corn over the amount  
required for seed in the club will be  
sold and the proceeds used to pay  
the club premiums.

Thus it is believed that the club  
can be made self sustaining.

Men back of the boys' corn club  
project see a great future for the  
Rush County Boys' Club because the  
original outlay is not great and there

### OUR DAILY BOOST

The fame of Rush county land  
is extending beyond the bound-  
aries of Indiana.

An Illinois man has written  
the Rush county agricultural  
agent for information, with the  
idea of buying a farm of eighty  
acres.

"I have been told that the  
best part of Indiana was imme-  
diately south and east of In-  
dianapolis," he wrote.

Thus the demand for Rush  
county land continues and local  
investors permit it to be sold  
for much less than it is worth.

Men from many other states  
have invested in Rush county  
land because they see its possi-  
bilities.

When will Rush county capi-  
talists awake to the value of  
Rush county land?

## Little Town of Ina Convinced Devil is Back of Poison Slaying

Jefferson County Authorities Think  
Differently as New Facts Are Re-  
vealed Regarding Relations of the  
Rev. Lawrence Hight, Confessed  
Slayer of His Wife and Mrs. Wil-  
ford Sweetin, Who Admits Pois-

Planned it

By HERBERT LITTLE  
(U. P. Staff Correspondent)

Ina, Ill., Sept. 25—"The devil did  
it,"

This is the opinion of Ina, shocked  
beyond anger by the poisoning of  
Wilford Sweetin by his wife and An-  
na Hight by her husband, Rev. Law-  
rence Hight.

"Sex did it," say the Jefferson  
county authorities.

The 225 members of Rev. Hight's

Methodist Episcopal congregation  
here and the other 175 citizens of the  
town went back to work, today, sad-  
der, wiser, still astonished.

New stories of the relations be-  
tween Rev. Hight and Mrs. Sweetin  
came out into the open as the  
preacher in a grimy cell at Nashville,  
Ill., and the woman in the Marion  
county jail at Salem bared their in-  
fidelities.

The pastor during his hectic three  
month love affair culminating in the  
death of Elsie Sweetin's hard work-  
ing coal miner husband and the pas-  
tor's wife purchased the milk for his  
household from the Sweetins. But  
the peculiar detail is that instead  
of sending his 16 year old son or his  
fourteen year old daughter for it the  
pastor always made the trip himself.

Many times Hight was seen sitting  
at a pile of lumber across the  
street in view of the Sweetin house,  
mopping his brow with a handker-  
chief in an ostentatious way sug-  
gestive of signalling after which he  
would walk away.

## MANY CLAIMS ARE PLACED ON DOCKET

New Suits in Circuit Court Involve  
Settlements of Estates in Most In-  
stances

### DIVORCE EVIDENCE HEARD

Judge Rufus Hinshaw Takes Under  
Advisement Plea of Chase Floyd  
For Separation

Several law suits were filed in the  
circuit court today, most of them  
being issues involving the settle-  
ments of estates, and claims against  
estates.

Judge Rufus Hinshaw of Newcas-  
tle, who was here Wednesday after-  
noon hearing the issues in the di-  
vorce suit of Chase Floyd against  
Daisy Floyd, has the evidence under  
advisement. He also heard the pe-  
tition for contempt proceedings, and  
found the plaintiff indirectly guilty  
of contempt, but no decision was  
made on the facts. He also overruled  
the motion of the plaintiff to modify  
the support orders, and sustained  
his former orders.

In the cases filed today, Emma C.  
Caldwell has brought action against  
Hugh Brandenburg, and others, ask-  
ing that the court partition real es-  
tate involved in the estate of the late  
Alice Jones.

In the list of claims filed, are the  
following:

William L. Newbold against the  
estate of Joseph M. Priest, \$25.

The Maury Company against the  
estate of A. N. Williams, demand  
\$14.37.

Rush County Mutual Live Stock  
Insurance Co., against William E.  
Major, demand \$4.80.

J. L. Cowing, Son and Company,  
against the A. N. Williams estate,  
demand \$41.70.

Ball and Orme against the same  
estate, \$3.00.

Charles S. Murphy against the es-  
tate of Catherine Moore, demand for  
\$1,580 on a promissory note.

Chauncy W. Duncan, against the  
estate of Frank Gilson, demand for  
\$95.44.

Debbie V. Murphy against the Cat-  
herine Moore estate, demand for  
\$380.

Buford Boone against the estate  
of Sarah M. Augar, demand for  
\$200.

Marion Owen, et al., also have  
filed suit in the circuit court against  
Gertrude Gosnell, and others, the  
action being to partition real es-  
tate.

## ROOSEVELT IS NOMINATED

Selected by New York Republicans  
as Nominee for Governor

(By United Press)

Convention Hall, Rochester, N. Y.,  
Sept. 25—Assistant Secretary of  
the Navy Theodore Roosevelt was  
nominated as the Republican party  
candidate for governor by the state  
convention here today.

Roosevelt's nomination came at  
the first ballot of the convention re-  
ceiving 557 votes, according to un-  
official figures while he needed but  
496 to win.

Roosevelt was at his hotel head-  
quarters when the nomination was  
made but his managers at the con-  
vention hall said he would issue a  
statement later in the day accepting  
the nomination.

Traveling on board the "Highway  
Limited", the first trackless train to  
make an extensive tour of the state  
of Indiana, members of the invita-  
tion committee for the Second Indianapo-  
lis Industrial Exposition to be held  
at the State Fair grounds in Indianapo-  
lis under the auspices of the Indianapo-  
lis Chamber of Commerce, October 4-11, will arrive in Rushville  
at four o'clock Saturday afternoon  
for a brief visit in this city, during  
which time the official invitation of  
Mayor Shank, of Indianapolis, and  
Exposition officials, will be delivered  
to the Mayor and citizens of this city.

The Invitation Committee, com-  
posed of Frank S. Chance, of the  
Frank Chance Advertising Co., E. J.  
Gausepohl of the E. J. Gausepohl Co.,  
Jesse E. Hanft, of Oval & Koster  
and R. Webb Sparks, chairman of  
the Industrial Committee, immedi-

on Mayor Walter Thomas and other  
prominent persons to tell first  
hand, the story of the Second Indianapo-  
lis Industrial Exposition. R. W.  
Sparks, chairman of the invitation  
committee, will deliver to Mayor  
Thomas an embossed invitation from  
Mayor Shank in which Mayor Thom-  
as is called upon to invite the citi-  
zens of this city to visit the Expo-  
sition.

The "Highway Limited" which is a  
miniature train, double motored,  
equipped in every detail to corre-  
spond with the modern pullman, has  
every appearance of a 20th Century  
Transcontinental train and will re-  
main in this city one half-hour that  
every citizen interested may inspect  
it and be given "radio messages"  
from Indianapolis inviting the citi-  
zens to the Exposition.

Members of the Invitation Commit-

## CARAVAN SWINGS ACROSS THE STATE

Greeted in Towns and Villages A-

Goshen

### IN SOUTH BEND TONIGHT

Jackson to Open Campaign at New-  
castle Saturday—Davis Coming  
Back Into Indiana

(By United Press)

South Bend, Ind., Sept. 25—Sing-  
ing the campaign song of Calvin  
Coolidge and Charles G. Dawes,  
seven automobiles of republican sup-  
porters, a caravan winding its way  
from Vermont to Seattle, swung a-  
cross northern Indiana today.

Republican politicians greeted the  
caravan at all the towns and villages  
through which it passed. The party  
stopped at Goshen at noon for lunch  
and a meeting was held in the court  
house park. W. A. Jeffries of Ne-  
braska, Herbert Moore, a boyhood  
friend of the president, and Repre-  
sentative Wood of Lafayette, ad-  
dressed the gathering.

Stops were scheduled for this af-  
ternoon at Elkhart and Mishawaka.

A large delegation left South Bend  
today to join the caravan at Elkhart  
county line and escort it here. A  
mass meeting will be held in Howard  
Park tonight.

The caravan will remain here over  
night and proceed to Laporte and  
Valparaiso enroute to Chicago tomor-  
row.

Delegations of Republicans from  
every county in the twelfth district  
attended a mass meeting in Fort  
Wayne last night to greet the car-  
van.

A red torch light parade preceded  
the mass meeting. Thousands of  
persons lined the streets along the  
line of march to witness the parade.

Addresses were made by half a do-  
zen Republican orators.

An escort of 200 automobiles went  
to the Ohio state line to accompany  
the party to Fort Wayne.

as the train will be driven about the prominent streets of the city so that every resident may see it. Mayor Thomas and members of his reception committee will be invited to take a short tour of the city that they may be given an opportunity fully to learn of the marvels of the "Highway Pullman."

The pullman car attached to the "Highway Limited" is of combination wood and steel construction, thirty feet in length and of a width adaptable for highway travel. The coach is of strictly pullman type, containing six berths, a kitchenette, lavatory, dining facilities, a writing desk, a complete radio outfit, with concealed aerial, a chaise longue, and richly upholstered chairs, as well as an observation platform on the rear, suitable for the accommodation of several wicker and tapestry upholstered chairs. The coach is lighted by electricity and has such appliances as an electric fan and an electric heater.

The locomotive is equipped with hydraulic brakes which operate either from the cab or from the pullman car and with headlights and other lights for night travel, pneumatic tires and vanadium steel springs, assure comfortable riding qualities and aid materially in the balance and safety of the train.

Wherever the train has been displayed it has attracted large throngs as it represents an innovation in motor vehicular travel and undoubtedly will be of great interest to many citizens of this city.

The "Highway Limited" will leave this city at four-thirty o'clock, pro-

## Have you seen this new car? —It is a closed-open car!

A WEEK ago the new Studebaker Special Six DUPLEX-PHAETON was first announced.

Today, countless thousands of people are talking about this entirely new type of car.

One moment it is a closed car—in five seconds it can be transformed into a delightful, airy, open car. But it is always the closed car in deep soft cushions, beautiful fittings and finish and luxurious riding comforts.

When you see it and ride in it you will know why it has made so profound a sensation—you will realize then that it gives you more than the finest open car can ever give you, plus the comfort and protection of the closed car.

And all at the price of an open car!

And this is the new DUPLEX BODY on the famous Special Six Chassis.

Hundreds of thousands of owners all over this country and abroad have given the Studebaker Special Six a name for value, dependability and performance second to no other automobile.

The new Studebaker Special Six retains all the qualities which make great reputation—to these have been added every real improvement which science and owner-service could suggest.

Even aside from the sensational new DUPLEX BODY—the Studebaker Special Six has no superior in value in any car yet built. It was the conscientious intention of Studebaker in planning and designing the new Special Six to make it just such a leader—to that end every resource of the great Studebaker organization has been concentrated.

Even if we had the space we could not begin to tell you of the very many new and unusual features which indicate its superiority.

Certainly no words could do justice to its distinctive beauty.

In appearance it is unlike any other American car—yet its long, low, broad, sweeping lines are conservative, crisply stylish and in beautifully good taste.

Think of the new Studebaker Special Six Duplex-Phaeton as the ultimate in value and performance in a five-passenger car—think of it as a car matchless in practical convenience and desirability.

But to appreciate the sparkling beauty of its totally new lines you must see it. To know its perfection of operation and performance you must ride in it and drive it.

If you have not seen this NEW type car—come today!

### WIRE FENCES

"Super-Zinc-ed" Fences are protected against rust by an extra heavy and well bonded coating of zinc that will not crack or peel. The zinc is applied by an improved process which is the successful result of years of effort to produce better and more durable fences.

### Columbia Fence

is made with the well known Columbia Hinge Joint. Its natural strength together with its "Super-Zinc-ed" rust protection affords an exceptionally long lasting enclosure. It establishes a new standard of fence service and durability. And money will be saved in the long run by investing in this good fence.

night lunch counter fully dressed, explaining that he saw a light and got up to find out what the boys were doing. This happened frequently especially when Sweetin went to Benton to work.

Ina believed in his pastor. That's why it hurt the town so much. Several citizens including two women, visited him in his cell after his arrest, assuring him of their faith in the innocence which he then proclaimed.

### Held as Slayer

Rev. Lawrence M. Hight of Ina, Ill., has confessed to the murder of his wife, according to authorities at Mt. Vernon, Ill. The age-old triangle of illicit love is blamed by officials. But the minister contends he poisoned her while she was ill "to end her sufferings." The woman, with whom he is alleged to have had illicit relations, is accused of poisoning her husband, Wilford Sweetin.

The funeral sermon of Elsie's husband, dead by arsenic which he gave the woman, was recalled frequently. Using as his text the verse in the book of St. John "let not your heart be troubled; ye believe in God; believe ye also in me; in my Father's house are many mansions," the pastor preached a powerful sermon that moved the audience under himself to tears.

"I didn't want to come to this pulpit to preach but now I see the Lord had reason for sending me here. It was to convert this good man who is now resting under His beneficent smile."

This hypocrisy now causes good citizens in the quiet village to ascribe the crime to the devil.

Hight himself gave the same reason exclusively to the United Press in an interview looking through the bars at the Nashville jail. Elsie Sweetin says she felt the pastor had some influence upon her, driving her on to the terrible crime.

But State's Attorney Frank Thompson, gathering tales of assignments and mysterious meetings between the two poisoners and blase newspapermen say "just a case of sex breaking against the limitations of their social bonds."

Long repression of the pastor's desire for a pretty woman to take the place of his steadfast wife of 26 years is seen in the discovery of dozens of pictures of pretty women, some members of his congregations in places where he was formerly stationed. Latest identified picture is that of a beautiful brunette member of his congregation at Thebes, extreme southern point in Illinois where he was preaching three years, named Ruby Gillespie. She married shortly after the pastor left.

The picture was identified by friends of the girl here who said the family gave the pastor's wife the picture as a mark of esteem for his work. Hight, however, had the picture pasted on the back of a picture of himself found at his home. Several others found ascribed his repressed desires for youthful feminine beauty.

Three Sweetin children,—Byford, 14, Staunton, 11; and Harry Lee, 8; will be placed in some institution by their grandfather, Christopher Columbus Sweetin on \$600 which Mrs. Sweetin saved from her husband's earnings.

## These Advanced Features Point The New Way

The Chrysler Six throttles down to 2 miles an hour in high. When you "step on it" the Chrysler shoots from 5 to 50 miles an hour in less than 19 seconds. In its speed range from 2 to 70 miles an hour there is no "vibration point". At all speeds and under all conditions it is remarkably easy to handle. One of the reasons for this is because it has pivotal steering, with ball thrust bearings on the king pins. Special design six-ply, high-speed balloon tires are standard.

of October 22 and at Evansville that night.

#### To Travel By Caravan

Indianapolis, Ind., Sept. 25—A motor caravan leaving the Severn at 1:30 p. m. September 27, will carry a band, life and drum corps and entertainers to the Ed Jackson meeting at Newcastle, according to an announcement at Republican headquarters today.

The caravan will stop at towns enroute to drum up crowds. Special cars will leave the interurban station at 4 p. m. and also carry bands and other noise making machinery.

Republicans urged attendance at the Jackson meeting to make it the largest in the campaign.

#### CAMPAIGN DAY BY DAY

President Coolidge was expected to steal the political spotlight from Democrats and independents with his speech in Philadelphia tonight and there was speculation among party leaders as to whether or not

he will refer to veiled charges against him that have grown out of former Attorney Daugherty's letter to J. W. Davis and the much discussed republican and counter-repudiation of Gaston B. Mean's testimony in the senate investigation of the department of justice.

The president leaves for Philadelphia late today and will address a meeting in the Academy of Music in connection with the patriotic celebration there.

J. W. Davis, Democratic candidate, was on a new swing through West Virginia and was expected to deal with the labor question in addresses in mining towns.

Senator Wheeler, Independent vice presidential candidate, continued to carry the load in the independent campaign, issuing a statement in Duluth in which he pledged the independents if elected, to convene congress at once to design permanent agriculture relief laws.

The New York political situation was clearing with the Republican state convention in Rochester expected to nominate Assistant Secretary of the Navy Roosevelt as its gubernatorial candidate, while the Democratic convention in Syracuse was united on Governor Smith.

## Seed Corn

The plan of the Jackson Township Farm Bureau to utilize the basement of the Jackson township school building to store seed corn during the winter is one that might be followed by the farmers of other townships with great profit.

It does not need to be emulated in every detail. The most important thing about what the Jackson township farmers propose to do is the co-operative storing of seed corn so that they will be certain to have satisfactory seed for the spring planting. It is not necessary to store it in a school building. Any building that will keep the seed in good condition is sufficient.

Not many sections of the country have the promise of the corn crop that this particular section has in which Rush county is located. There is certain to be a shortage of seed next spring and the farmers who have a surplus of good corn to be used for this purpose will be able to sell it at high prices.

That is not the only thing that recommends careful selection and storing of seed corn. Farmers who assure for themselves enough good

seed to plant next spring's crop will be doing something beneficial by insuring for themselves healthful seed so that they may get returns on their work and increase the county's yield of corn.

Co-operative storing of seed corn has been tried in Johnson county for several years past. An extra man has been employed to assist the county agent in the selection of seed corn. First the third story of a building in Franklin was used. Farmers have learned that the plan is so practical and profitable that the whole building will be utilized simply to save seed corn for next year.

This is one of the reasons why Johnson county excels in good corn and is able to win prizes at corn shows.

Corn growers profit by selling the seed at figures far above the market price. There is no reason why Rush county farmers can't do the same thing with profit to themselves and the whole county.

## The Boy's Part

A woman speaking before a men's civic club recently said that the boys of the country were suffering from too much male domination—that they needed the womanly touch.

Every man will admit that they do need the influence of a mother, but that they are not being "dehumanized" by their elders.

The boy is the fellow who is going to carry on what the men of the present generation have begun or are beginning. He needs to be in close contact with men to get the masculine viewpoint—and he is not going to suffer if the man is inclined to interest himself in boys.

More and more intensely are men coming to realize that they can do more for the future by taking some interest in what the men of the future will be, than in any other way.

Men's organizations are devoting time to a study of the boy and trying to direct his activities and thoughts into channels that will develop him so that he will be able to take up the job where they leave off.

Men who stop to think have long since realized that it is wasted effort to build up a business based on an ideal if something is not done to instill the same thought in the mind of him who will carry on.

Man's work today is going to be judged, and praised or condemned by the boy of today, when he becomes a man.

Man's efforts, no matter how sincere and well meaning, are as snow before a hot sun unless he takes into account those who are to follow.

He—this boy of yours—is going to be the president, the senator, the statesman, the preacher, the teacher, the lawyer, the judge, the merchant. The fate of the nation and humanity is in his hands.

So it is well to pay him some attention for the measure of success he has with the tasks of the next generation depends on the training he has at the hands of the men of the present generation.

## HUNT'S DAILY LETTER

BY HARRY B. HUNT  
NEA Service Writer

WASHINGTON—Washington is a good deal surprised at the change in Secretary of the Treasury Mellon's attitude toward the Couzens investigation of his department.

Not so long ago he threatened to resign if the inquiry were pushed. He was so emphatic about it that President Coolidge himself demanded a stop to the "probes" the Senate was conducting. Now it's announced that he'll co-operate in this one—the very one that previously he was most particularly dead set against.

From the committee room comes the news that the investigators are getting their data in order and that Mellon is helping them. It is stated that the first witness will be called about Oct. 1.

ONE theory is that Mellon wants to know what's going on before it actually happens; that having failed to head the investigation off, his plan is to give a little direction to it.

He can't overshadow Couzens. Everybody who knows the latter feels sure of this.

But can't he out-manuever him? Couzens is not a first class investigator, like Senators Walsh and Wheeler.

He's fearless. His tenacity is something to wonder at. He knows what he wants and goes after it with indomitable resolution, but in matters of this sort he doesn't know exactly how to go it.

He proved this several months ago, when the present inquiry started. Handicapped by fellow-committeemen who didn't want him to discover anything, all he could do was to "flounder around," as he himself expressed it. He lacks the art or the experience to bring out the significant, the dramatic, the startling.

THEN again, there's another thing Secretary Mellon may have in mind.  
The committee aims to delve into

two subjects—income taxes and prohibition.

Poking into the income tax in what, perhaps, Mellon especially objects to. Probably he doesn't care so much about prohibition. He never has been known as a dry, politically. The two doubtless can agree on that.

It's conceivable that Mellon, a banker, would be violently averse to having any disagreeable facts uncovered in the income tax department, which he's supposed to know all about, and not particularly averse to having them uncovered in connection with prohibition enforcement, which he's no specialist at.

Isn't there a chance he's made up his mind the income tax department is investigation proof and doesn't care what happens to the prohibition unit? That's what politicians are wondering.

INCOME taxation is a subject it's mighty hard to turn inside out, anyway.

Under the present law, passed shortly before Congress' last adjournment, congressional investigators are entitled to demand answers to questions concerning specific cases.

If they have their suspicions of some definite transaction, they can go to the bottom of it. But they can't dig up clues as they go along, and follow them here, there and everywhere. This limits their activities.

Prohibition, on the other hand, is wide open. A witness' only valid excuse for refusing to answer a question concerning dry law enforcement is that he might incriminate himself by doing so.

For the investigators' purposes, a witness might about as well incriminate himself as avail himself of that excuse.

So the indications are the inquiry will be rather tame so long as the investigators stick to income taxes but mighty snappy when they get to prohibition.

## Catarrh-- Unnecessary

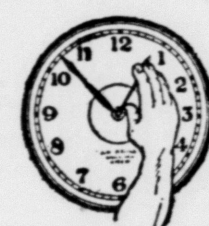

Chiropractic Health Talk No. 85

By H. V. McCully, D. C. Ph. C.

Catarrh is so prevalent throughout America that many of us have, or have had the impression that it is a necessary evil due to our climate. This impression is wrong, and the cause of much needless suffering.

Usually starting with a "cold" there is a thin watery discharge from the nostrils. This gradually thickens and it becomes difficult to keep the nasal passage open. At night it is almost impossible to breathe through the nostrils, and mouth breathing, which is dangerous because the air reaches the lungs without being properly heated and filtered of dust. This results in irritation of the bronchial passages, and further discomfort.

Then, if one has permitted the annoyance to reach this stage, when it is well to know that our chiropractic health method corrects the cause and removes the effect.

## Catarrh Capitulates

"From childhood I was troubled with Catarrh of the nose and throat, which gradually became worse. Many patent catarrh balms and medical prescriptions were tried without results. My friends assured me that almost everyone suffered from Catarrh, due to the climate, and a cure was impossible. I have since learned how far from the truth they were. Chiropractic adjustments have worked wonders for me and made me feel like a new person." — Emma H. Kelly, Chiropractic Research Bureau Statement No. 16H.

## LOOKSLIKEGIANTS ANDTHESENATORS

Certain to Meet in World Series Unless a Miracle Happens, Which is Improbable

### PIRATES PASS OUT OF RACE

Brooklyn is Only One Game Behind, But Closes Season With Two More Games

By HENRY L. FARRELL  
(U. P. Staff Correspondent)

New York, Sept. 25—Recalling infrequency of miracles in the national pastime since 1914, it now looks certain that the New York Giants and the Washington Senators will meet in the world series.

New York gamblers are offering their money that way. Odds are 7 to 10 the Giants and Senators will come through to the championship. Some even money also has been placed that the Giants will win the series.

Pittsburgh passed out of the National League race yesterday when the Pirates dropped their second straight game to the Giants and fell 3½ games behind the champions. Brooklyn is still in second place, trailing by one game.

The Giants have four more games to play and the Robins have only two. If the Giants win three out of four games they will clinch the pennant. Brooklyn probably will win their two remaining games and if the Giants lose a pair the two clubs will have to play off three games for the title.

Having been beaten twice by the Giants and with their best pitchers used, it is not likely the Buccaneers will be able to take the third game here today. The Giants have rested and primed Arthur Nehf their star southpaw, for the last shot and Nehf always has been like poison to Pittsburgh.

The Senators and Yankees won their games yesterday, remaining in the same positions, with the Yankees trailing by two full games. The American League clubs are all idle today. The Senators play four more games against the Boston Red Sox and the Yanks have four remaining with the Philadelphia Athletics.

If the Senators win only one of their remaining games the Yankees would have to sweep the four game series with the Athletics. It is improbable that the champions will be able to do that, as the Athletics are now playing good ball and it is just as unlikely that the Senators will drop three games to the Red Sox.

### U. S. Athletes Clean Up

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Sept. 25—That puffed chest and smile-wrinkled face your Uncle Sam is wearing at the shank of the summer sport season is not an indication that he is getting childish in his old age.

The old fellow has every reason to swell up and be proud of what his boys and girls accomplished in the international sport matches that crowded the 1924 program. Against strong international competition, Americans came out first in:

ATHLETICS  
POLO  
GOLF  
TENNIS  
ROWING  
SWIMMING  
BOXING  
RUGBY FOOTBALL

Against victories in eight lines of major sport, the United States had to admit defeat only in women's team tennis, skating, fencing and soccer football.

Quite a record! So good a record that no nation ever could beat it!

Most impressive of course was the sweep made by the American team in all the important classes of the Olympic games in Paris—track and field athletics, rowing, swimming, boxing, tennis and rugby football.

There were glorious victories scored on all kinds of fields but the outstanding event of the year, perhaps, was the triumph of the American rugby team in the Paris Olympic matches.

No band of Americans went against such heavy, natural handicaps in the way of experience, and no team ever went through such malicious antagonism from all sides to

Last Round Before Semi-Finals in Amateur Golf Championship

Merion Cricket Club, Philadelphia, Sept. 25—Four star matches are on the program today in the round before the semi-finals of the national amateur golf championship.

Two champions,—Max Marston, Cummings, the intercollegiate title the defending champion, and Dexter holder—will meet in the feature match of the day.

Bobby Jones, former national open champion, will play against Ruddy Knepper, former Princeton star.

George Von Elm, Pacific coast star, will play Eddie Driggs, New York, and Francis Onimet will meet his fellow Bostonian, Jess Ginford.

score one of the most brilliant and convincing victories of the year.

The American Olympic team finished first in the Paris track and field games with a better score than was made in winning the Antwerp games of 1920. The Americans made a higher point score and won more events against opposition that was expected to give them the greatest fight of their lives.

Yesterday's Hero: Sad Sam Jones who blanked the Indians while the Yankees were winning a 2 to 0 game.

Virgil Barnes tossed them by Pittsburgh in the second game of the series, the Giants winning 4 to 2. Both Pirate runs were homers by Smith.

Barleigh Grimes kept the Robins in the National League race by pitching his club to a 6 to 4 victory over Chicago.

Washington made a clean sweep of the White Sox series, winning the final game 6 to 3. The Senator's victory came in the sixth inning spurt which netted three runs.

Boston took two games from Cincinnati, winning the first 7 to 6 and the second 5 to 3.

Flint Rehm, kid pitcher recently acquired by the Cards, won his first start when St. Louis bumped Philadelphia 9 to 4.

## WEDNESDAY NIGHT'S ATTENDANCE IS BIG

Large Crowd Present For Revival Services Being Conducted at the Church of God

### SERMON BY EVANGELIST

A large crowd attended the revival at the Church of God Wednesday night. A feature of the meeting was a solo by the pastor, The evangelist, L. F. Robold delivered the message taking as his subject "The Bible Church." He spoke in part:

The church is compared as a house, a sheepfold, a family, a vineyard, and a kingdom. It is a spiritual house because it is made up of lively stones, and it has a sure foundation because it is built on Jesus and the law and order of it is holiness.

He warned them to be careful what they were building.

"If it was built on Christ, it would be a spiritual church because Christ was a spiritual rock. Christ is a door to the church and people are admitted by him by being converted. The door is always open and Jesus keeps a record of his children. He spoke of the ordinances which is baptism in the Lord's supper and feet washing, which is practiced by this church."

Many other interesting points were brought out. Services tonight at 7:30 o'clock with special singing.

## ALL WOMEN WHO WORK

Should Know how this Worker was Made Strong and Well by Lydia E. Pinkham's Vegetable Compound

Zahl, N. Dakota.—"I was nervous and weak and was not regular. I also had pains frequently. I was sickly for seven years and finally had a nervous breakdown following an operation. I am a dressmaker and milliner, and a lady I work for told me of Lydia E. Pinkham's Vegetable Compound. I am taking it and it has made me well and able to do my work again. I have even helped take care of a sick neighbor recently, so you can see how fit I am. I highly praise your medicine and you may use my letter as you see fit. I hope it will help some other woman."—Mrs. OLE NORDLEIN, Box 23, Zahl, North Dakota.

Over 121,000 women have so far replied to our question. "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?" 98 per cent. of these replied answer "Yes."

This means that 98 out of every 100 women taking this medicine for ailments for which it is recommended are benefited by it. For sale by all drug lists.

### Love Story at Castle

"Merry-Go-Round", the Universal Super-Jewel screen production at the Castle theatre, is a love story in every sense of the word.

It makes no difference what its length may be, or how big the cast, or how thrilling the spectacle scenes, it is a love story, sweet and compelling, with its tragic, bitter elements—realities of an unpleasant world—but with the whole drama softened as by the magic touch of some divine understanding of human love.

It tells of Vienna, the great pre-war days and the dark, dismal ones which came with the conclusion of peace. The lovers are Agnes, a little girl who is one of the slaves of the Prater, Vienna's Coney Island, and Count Franz. The latter naturally is quite unattainable for a peasant girl; at least, respectfully.

Mary Philbin, prophesied as one of the biggest feminine possibilities of the film future, is the girl. Norman Kerry is the man, and the balance of the cast includes George Hackathorne, Casare Gravina, Edith Yorke, Lillian Sylvestre, Anton Vaverka, Al Edmundson, Dorothy Wallace, Spotiswood Aitken, Sidney Bracy, George Seigmann, Dale Fuller and other most capable artists.

### Last Showing Today

Among the historic settings for "The Covered Wagon", a James Cruze picturization for Paramount of Emerson Hough's story of the wagon trains of 1848, at the Princess theatre, is old Fort Bridger—the oldest settlement in Wyoming. It was made a trading post in 1842 and lies on the middle branch of Black Forks of the Green River.

When first established Fort Bridger was in territory belonging to Mexico and became a favorite fur trading establishment. In 1847 the Mormons migrated to Salt Lake Valley, and a new element was introduced. Then came the immigration to the gold fields of California and the mighty track to Oregon which former expeditions continued until several years later when the Union Pacific railroad was built. Bridger reaped a golden harvest and helped many an immigrant on his journey.

Not only the old post but Jim Bridger himself lives again in this superb film spectacle which was produced with a wealth of accurate detail and which depicts the coming of the families from the old starting point—Westport Landing, now Kansas City, Mo.,—to the west.

No more fascinating period exists in American history. The trappers, the scouts, Indians, emigrants, gold-seekers are the most picturesque figures that can be found in the records of this country and the winning of the west marks the greatest epoch in the development of the United States.

J. Warren Kerrigan and Lo's Wilson play the leading roles. Alan Hale is the villain. The cast generally is artistic and satisfying.

## FORMER HEAD OF GUARD HERE HELD

William B. Brann Released on Bond  
Following Arrest on Grand Jury  
Indictment

IS FOUND IN CINCINNATI

Charged With Maintaining Common  
Nuisance at Armory And With  
Sale of Liquor

William B. Brann, former captain of Company C, the Rushville National guard unit that was mustered out of service several months ago because of alleged irregularities, was today under \$3,000 bond in the Rush circuit court on a grand jury indictment.

The indictment was returned during the February session of the grand jury, and the charge is maintaining and assisting in the maintenance of a common nuisance. The indictment is in two counts.

The first count charges the defendant with keeping a house, club room and gathering place known as the army for the guard unit, and maintained the place for other purposes than governmental business. The count alleges that he permitted men to gather and drink intoxicating liquors, and he is charged with keeping "the place where liquor was sold and delivered in violation of the state laws."

The second count of the indictment charges that on or about December 23, 1923, the defendant sold to Raymond Finney, one of the guardsmen, a quart of whiskey for the price of two dollars.

Brann was arrested Wednesday afternoon on the streets in Cincinnati by Ed Spradling, deputy sheriff. The local officers had been notified that the defendant was in that city, or at Latonia attending the races.

When the grand jury investigated the alleged transactions here, it is said that Captain Brann disappeared and his whereabouts were unknown until recently.

Officer Spradling went to the races at Latonia Tuesday, but failed to locate him on the grounds and he remained over in Cincinnati Wednesday, and while walking along Vinc street, met him, and Mr. Brann consented to accompany him here without the requisition papers.

He was arraigned before Judge Sparks and entered a plea of "not guilty," and bond in the sum of \$3,000 was provided for his appearance later.

## MRS. SAREPTA COCHRAN IS DEAD AT HOME HERE

Deceased Was a Sister of the Late  
George H. Punteneay and Last  
Member of Family

BORN IN FAYETTE COUNTY

Mrs. Sarepta Cochran, a sister of the late George H. Punteneay, died this morning about two o'clock at her home, 1029 North Benjamin street, death resulting from infirmities with advanced age.

The deceased was born February 11, 1839, in Fayette county, and was past 85 years of age. She was the last surviving member of that branch of the Punteneay family. Her husband died several years ago, and since then she has been making her home with John Little and his sister, Maggie Little, at whose home she died.

The direct survivors are two nephews and a niece, J. A. Gleason of Tipton and George H. Punteneay of St. Petersburg, Fla., and Mrs. Harry Kramer of this city.

Funeral services will be held Saturday morning at ten o'clock at the late residence in charge of the Rev. E. G. McKibbin and burial will be made in the Presbyterian church cemetery at Glenwood.

## ENOUGH FOR 6,900 BUSHELS

Copper Carbonate Sold to Treat  
Wheat for Stinking Smut

Library • Copper carbonate has been sold by Rushville drug stores to treat 6,900 bushels of wheat for stinking smut, according to Herschel VanMatre, county agricultural agent, who checked up today on the way farmers had acted upon the suggestion that this solution be used to get rid of this trouble in seed wheat. Counting two bushels of seed to the acre, enough has been treated for stinking smut to plant about 3,500 acres of wheat.

This indicates that farmers are very favorably impressed with this treatment, Mr. VanMatre believes. The local supply of copper carbonate is about exhausted.

## BOYS' CORN CLUB BEING ORGANIZED

Fifty Bushels Of Seed, Third Of a  
Bushel To Each Club Member,  
Will Be Distributed

TO BE MADE SELF SUSTAINING

Boys Will Be Paid For Part Of Corn  
They Raise And It Will Be Sold  
As Seed

Preparations are being made to organize a Boys' Corn Club in connection with the Rush County Corn Show, as a means of stimulating the interest of boys on Rush county farms in the growing of better corn and the producing of larger yields.

The first announcement regarding the proposed corn show, which will be held January 6, 7 and 8 of next year, was made Wednesday and committees were appointed to take charge of the different features of the show. There is a committee of three representing each township.

The Boys' Corn Club, according to present plans, will be built on a firm foundation that will insure its continuation for years to come because boys will be inspired to go in to the project, not alone for financial gain, but because they will be helping other boys coming on to profit from the work of the club.

It is proposed to start the club with a nucleus of fifty bushels of a pure strain of Reid's Yellow Dent for seed and each boy joining the club will be given one-third of a bushel for seed purposes. This will limit the club the first year to 150 boys.

Every boy who joins the club will be required to sign a pledge agreeing to return one bushel of the corn he raises to the club at the time of the annual corn show. Five or more premiums will be offered for the outstanding bushel of corn grown by club members.

It is hoped to give each boy one dollar in premium who does not win a prize on his bushel of corn.

All surplus corn over the amount required for seed in the club will be sold and the proceeds used to pay the club premiums.

Thus it is believed that the club can be made self sustaining.

Men back of the boys' corn club project see a great future for the Rush County Boys' Club because the original outlay is not great and there (Continued on Page Two)

## OUR DAILY BOOST

The fame of Rush county land is extending beyond the borders of Indiana.

An Illinois man has written the Rush county agricultural agent for information, with the idea of buying a farm of eighty acres.

"I have been told that the best part of Indiana was immediately south and east of Indianapolis," he wrote.

Thus the demand for Rush county land continues and local investors permit it to be sold for much less than it is worth.

Men from many other states have invested in Rush county land because they see its possibilities.

When will Rush county capitalists awake to the value of Rush county land?

## BOYS TAKE LESSON IN SCORING STOCK

Agricultural Classes From Manilla  
and Webb High Schools Attend  
Farm Sale Today

SCORING BY COUNTY AGENT

Eighteen boys from the agricultural class at Webb high school and seven from Manilla who are studying agriculture, accompanied by their teachers, attended the Brown and Sexton sale at the old Cullen farm west of Rushville today with Herschel VanMatre, county agricultural agent.

W. V. Klipsch, principal of Webb school, arrived first with his delegation and at 8:30 o'clock the county agent scored a purebred short horn cow for the benefit of the class, explaining how the judging of the animal was done. He also scored five yearling ewes, five brood sows and some horses.

Paul Imel of the Manilla high school faculty then arrived with his boys and a four-year-old mare was scored, the county agent pointing out the places where unsoundness was most likely to be found. Mr. Imel talked to the class regarding the desired confirmation of draft horses.

Mr. Klipsch then took the combined class to the barn on the farm and discussed the planning of barns, referring in detail to the advantages and disadvantages of a round barn, like the one in which the meeting was held.

Methodist Episcopal congregation here and the other 175 citizens of the town went back to work, today, sadder, wiser, still astonished.

New stories of the relations between Rev. Hight and Mrs. Sweetin came out into the open as the preacher in a grumpy cell at Nashville, Ill., and the woman in the Marion county jail at Salem bared their infidelities.

The pastor during his hectic three month love affair culminating in the death of Elsie Sweetin's hard working coal miner husband and the pastor's wife purchased the milk for his household from the Sweetins. But the peculiar detail is that instead of sending his 16 year old son or his fourteen year old daughter for it the pastor always made the trip himself.

Many times Hight was seen sitting atop a pile of lumber across the street in view of the Sweetin house, mopping his brow with a handkerchief in an ostentatious way suggestive of signalling after which he would walk away.

Several nights the pastor would stop at two in the morning at an all-

## MRS. CAROLINE LAKIN DIES AT SON'S HOME

Widow of the Late Joseph Parrish  
Lakin Succumbs Following Long  
Illness with Cancer

TWO SONS AMONG SURVIVORS

Mrs. Caroline Buell Lakin, widow of the late Joseph Parrish Lakin, died early this morning at the home of her son, Joe Lakin, 1131 North Perkins street, death resulting from a long illness with cancer.

The deceased was born in Hamilton county, O., November 8, 1838, and was nearing her 86th birthday. She had been a resident of this city and county for a number of years. She had been ill for several months, and her death was not unexpected, although it proved a shock to her many friends.

She is survived by two sons, Joe and Ray Lakin, both of this city. A brother, Clinton Buell, living east of this city, and a sister, Mrs. Ella B. White, of Indianapolis, also survive.

Funeral services will be held Saturday morning at ten o'clock at the late residence, in charge of the Rev. Gibson Wilson, and burial will be made in East Hill cemetery.

DIVORCE EVIDENCE HEARD

Judge Rufus Hinshaw Takes Under  
Advisement Plea of Chase Floyd  
For Separation

Several law suits were filed in the circuit court today, most of them being issues involving the settlements of estates, and claims against estates.

Judge Rufus Hinshaw of Newcastle, who was here Wednesday afternoon hearing the issues in the divorce suit of Chase Floyd against Daisy Floyd, has the evidence under advisement. He also heard the petition for contempt proceedings, and found the plaintiff indirectly guilty of contempt, but no decision was made on the facts. He also overruled the motion of the plaintiff to modify the support orders, and sustained his former orders.

In the cases filed today, Emma C. Caldwell has brought action against Hugh Brandenburg, and others, asking that the court partition real estate involved in the estate of the late Alice Jones.

In the list of claims filed, are the following:

William L. Newbold against the estate of Joseph M. Priest, \$25.  
The Mauzy Company against the estate of A. N. Williams, demand \$14.37.

Rush County Mutual Live Stock Insurance Co., against William E. Major, demand \$4.80.

J. L. Cowing, Son and Company, against the A. N. Williams estate, demand \$41.70.

Ball and Orme against the same estate, \$3.00.

Charles S. Murphy against the estate of Catherine Moore, demand for \$1,580 on a promissory note.

Chauncey W. Duncan, against the estate of Frank Gilson, demand for \$95.44.

Debbie V. Murphy against the Catherine Moore estate, demand for \$380.

Burford Boone against the estate of Sarah M. Augur, demand for \$200.

Marion Owen, et al., also have filed suit in the circuit court against Gertrude Gosnell, and others, the action being to partition real estate.

(By United Press)

Convention Hall, Rochester, N. Y., Sept. 25—Assistant Secretary of the Navy Theodore Roosevelt was nominated as the Republican party candidate for governor by the state convention here today.

Roosevelt's nomination came at the first ballot of the convention receiving 557 votes, according to unofficial figures while he needed but 496 to win.

Roosevelt was at his hotel headquarters when the nomination was made but his managers at the convention hall said he would issue a statement later in the day accepting the nomination.

Traveling on board the "Highway Limited", the first trackless train to make an extensive tour of the state of Indiana, members of the invitation committee for the Second Indianapolis Industrial Exposition to be held at the State Fair grounds in Indianapolis under the auspices of the Indianapolis Chamber of Commerce, October 4-11, will arrive in Rushville at four o'clock Saturday afternoon for a brief visit in this city, during which time the official invitation of Mayor Shank, of Indianapolis, and Exposition officials, will be delivered to the Mayor and citizens of this city.

The Invitation Committee, composed of Frank S. Chance, of the Frank Chance Advertising Co., E. J. Gausepohl of the E. J. Gausepohl Co., Jesse E. Hanft, of Oval & Koster and R. Webb Sparks, chairman of the Industrial Committee, immediately upon arrival in the city will call on Mayor Walter Thomas and other prominent persons to tell first hand, the story of the Second Indianapolis Industrial Exposition. R. W. Sparks, chairman of the invitation committee, will deliver to Mayor Thomas an embossed invitation from Mayor Shank in which Mayor Thomas is called upon to invite the citizens of this city to visit the Exposition.

The "Highway Limited" which is a miniature train, double motored, equipped in every detail to correspond with the modern pullman, has every appearance of a 20th Century Transcontinental train and will remain in this city one half-hour that every citizen interested may inspect it and be given "radio messages" from Indianapolis inviting the citizenry to the Exposition.

Members of the Invitation Committee have expressed the desire that none interested in viewing this 20th Century wonder, should overlook this opportunity as the pullman train is a revelation in vehicular construction.

Upon arrival in the city, the train will proceed directly to the City Hall but after the call upon Mayor Thomas (Continued on Page Two)

## Automobile Not Essential to Higher Education, Dean Rules

Bloomington, Ind., Sept. 25—Possession of an automobile is not essential to the task of securing a higher education, Miss Agnes Wells, dean of women at Indiana University ruled today.

Miss Wells issued an order that no women students be permitted to have an automobile at the school for more than four weeks. It is understood that the board of trustees of the school will issue a similar order applying to the men.

Students brought so many automobiles to school this year that the traffic problem swamped police. Limited parking space is in effect on all downtown streets.

Back Into Indiana

(By United Press)

South Bend, Ind., Sept. 25—Singing the campaign song of Calvin Coolidge and Charles G. Dawes, seven automobiles of republican supporters, a caravan winding its way from Vermont to Seattle, swung across northern Indiana today.

Republican politicians greeted the caravan at all the towns and villages through which it passed. The party stopped at Goshen at noon for lunch and a meeting was held in the court house park. W. A. Jeffries of Nebraska, Herbert Moore, a boyhood friend of the president, and Representative Wood of Lafayette, addressed the gathering.

Stops were scheduled for this afternoon at Elkhart and Mishawaka. A large delegation left South Bend today to join the caravan at Elkhart county line and escort it here. A mass meeting will be held in Howard Park tonight.

The caravan will remain here over night and proceed to Laporte and Valparaiso enroute to Chicago tomorrow.

Delegations of Republicans from every county in the twelfth district attended a mass meeting in Fort Wayne last night to greet the caravan.

A red torch light parade preceded the mass meeting. Thousands of persons lined the streets along the line of march to witness the parade.

Addresses were made by half a dozen Republican orators.

An escort of 200 automobiles went to the Ohio state line to accompany the party to Fort Wayne.

Another Swing Through State

Indianapolis, Ind., Sept. 25—John W. Davis, democratic standard bearer, will swing into Indiana from Ohio on October 11 for his second drive to obtain Hoosier votes. It was announced at the Democratic state headquarters today.

Davis will address a monster mass meeting in Indianapolis on the night of October 11 and will remain over Sunday. He will speak at Lafayette on the afternoon of October 13 and at Terre Haute that night.

Davis will go west from Terre Haute and on his way back will speak at Vincennes on the afternoon (Continued on Page Three)

## NIGHT ENGINEER AT CARTHAGE PLANT DIES

David Roberts, Age 38, Found Dead  
at His Rooming House—Heart  
Trouble is Cause

BODY SENT TO TENNESSEE

David Roberts, age 39 years, a native of Tennessee who has been employed for three years at Carthage, was found dead in bed Wednesday afternoon at his rooming house in Carthage, death being caused from heart trouble.

The deceased was a night engineer at the American Paper Products factory in Carthage and was on duty as usual Tuesday night, and was last seen alive when he went to bed Wednesday morning about 7 o'clock.

He lived at the rooming house of Mrs. Almira Smith and yesterday afternoon a friend came to call for him, and when he could not be aroused, it was discovered that he was dead in bed. He had been dead several hours.

Dr. E. L. Wooden of this city, a deputy coroner, was called and stated that death was due to heart trouble.

The deceased was a quiet person, and talked very little concerning his relatives, and the names of his survivors are not known. His body was shipped this afternoon to Rutherford, Tenn., his former home, where burial will be made.

as the train will be driven about the prominent streets of the city so that every resident may see it. Mayor Thomas and members of his reception committee will be invited to take a short tour of the city that they may be given an opportunity fully to learn of the marvels of the "Highway Pullman."

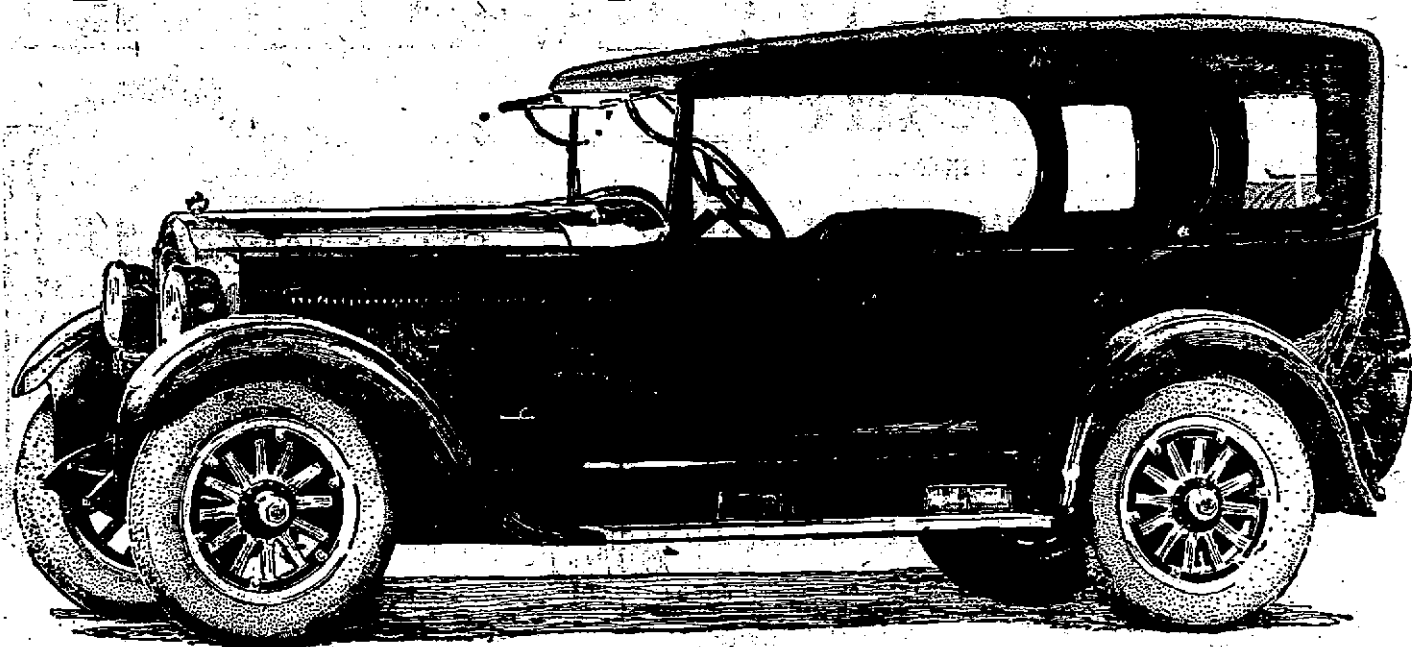

The pullman car attached to the "Highway Limited" is of combination wood and steel construction, thirty feet in length and of a width adaptable for highway travel. The coach is of strictly pullman type, containing six berths, a kitchenette, lavatory, dining facilities, a writing desk, a complete radio outfit with concealed aerial, a chaise longue, and richly upholstered chairs, as well as an observation platform on the rear, suitable for the accommodation of several wicker and tapestry upholstered chairs. The coach is lighted by electricity and has such appliances as an electric fan and an electric heater.

The locomotive is equipped with hydraulic brakes which operate either from the cab or from the pullman car and with headlights and other lights for night travel, pneumatic tires and vanadium steel springs, assure comfortable riding qualities and aid materially in the balance and safety of the train.

Wherever the train has been displayed it has attracted large throngs as it represents an innovation in motor vehicular travel and undoubtedly will be of great interest to many citizens of this city.

The "Highway Limited" will leave this city at four-thirty o'clock, pro-

## Have you seen this new car? —It is a closed-open car!

A WEEK ago the new Studebaker Special Six DUPLEX-PHAETON was first announced.

Today, countless thousands of people are talking about this entirely new type of car.

One moment it is a closed car—in five seconds it can be transformed into a delightful, airy, open car. But it is always the closed car in deep soft cushions, beautiful fittings and finish and luxurious riding comforts.

When you see it and ride in it you will know why it has made so profound a sensation—you will realize then that it gives you more than the finest open car can ever give you, plus the comfort and protection of the closed car.

And all at the price of an open car!

And this is the new DUPLEX BODY on the famous Special Six Chassis.

Hundreds of thousands of owners all over this country and abroad have given the Studebaker Special Six a name for value, dependability and performance second to no other automobile.

The new Studebaker Special Six retains all the qualities which make great reputation—to these have been added every real improvement which science and owner-service could suggest.

Even aside from the sensational new DUPLEX BODY—the Studebaker Special Six has no superior in value in any car yet built. It was the conscientious intention of Studebaker in planning and designing the new Special Six to make it just such a leader—to that end every resource of the great Studebaker organization has been concentrated.

Even if we had the space we could not begin to tell you of the very many new and unusual features which indicate its superiority.

Certainly no words could do justice to its distinctive beauty.

In appearance it is unlike any other American car—yet its long, low, broad, sweeping lines are conservative, crisply stylish and in beautifully good taste.

Think of the new Studebaker Special Six Duplex-Phaeton as the ultimate in value and performance in a five-passenger car—think of it as a car matchless in practical convenience and desirability.

But to appreciate the sparkling beauty of its totally new lines you must see it. To know its perfection of operation and performance you must ride in it and drive it.

If you have not seen this NEW type car—come today!

### VALUE POINTS— New Special Six:

The New Duplex-Phaeton Body—it solves the closed-open car problem.

Genuine Balloon Tires—20 x 6.20 inches.

New Satin-Lacquer Finish.

Spanish chrome tanned leather upholstery.

New idea in ease of operation and control.

Vibrationless Engine; force-feed oiling system with new idea in oil supply.

Four-Wheel Hydraulic Brakes optional—totally unlike any other system on American cars. Automatic braking pressure.

night lunch counter fully dressed, explaining that he saw a light and got up to find out what the boys were doing. This happened frequently especially when Sweetin went to Benton to work.  
Ina believed in his pastor. That's why it hurt the town so much. Several citizens including two women, visited him in his cell after his arrest, assuring him of their faith in the innocence which he then proclaimed.

**Held as Slayer**  
Rev. Lawrence M. Hight of Ina, Ill., has confessed to the murder of his wife, according to authorities at Mt. Vernon, Ill. The age-old triangle of illicit love is blamed by officials. But the minister contends he poisoned her while she was ill "to end her sufferings." The woman, with whom he is alleged to have had illicit relations, is accused of poisoning her husband, Wilford Sweetin.

The funeral sermon of Elsie's husband, dead by arsenic which he gave the woman, was recalled frequently. Using as his text the verse in the book of St. John "let not your heart be troubled; ye believe in God; believe ye also in me; in my Father's house are many mansions," the pastor preached a powerful sermon that moved the audience under himself to tears.  
"I didn't want to come to this pulpit to preach but now I see the Lord had reason for sending me here. It was to convert this good man who is now resting under His beneficent smile."  
This hypocrisy now causes good citizens in the quiet village to ascribe the crime to the devil.  
Hight himself gave the same reason exclusively to the United Press in an interview looking through the bars at the Nashville jail. Elsie Sweetin says she felt the pastor had some influence upon her, driving her on to the terrible crime.  
But State's Attorney Frank Thompson, gathering tales of assignations and mysterious meetings between the two poisoners and blase newspapermen say "just a case of sex breaking against the limitations of their social bonds."  
Long repression of the pastor's desire for a pretty woman to take the place of his steadfast wife of 26 years is seen in the discovery of dozens of pictures of pretty women, some members of his congregations in places where he was formerly stationed. Latest identified picture is that of a beautiful brunette member of his congregation at Thebes, extreme southern point in Illinois where he was preaching three years, named Ruby Gillespie. She married shortly after the pastor left.  
The picture was identified by friends of the girl here who said the family gave the pastor's wife the picture as a mark of esteem for his work. Hight, however, had the picture pasted on the back of a picture of himself found at his home. Several others found ascribed his repressed desires for youthful feminine beauty.  
Three Sweetin children,—Byford, 14, Stanton, 11; and Harry Lee, 8; will be placed in some institution by their grandfather, Christopher Columbus Sweetin on \$600 which Mrs. Sweetin saved from her husband's earnings.

**The Imperial**

The Chrysler Six throbbles down to 2 miles an hour in high. When you "step on it" the Chrysler shoots from 5 to 50 miles an hour in less than 19 seconds. In its speed range from 2 to 70 miles an hour there is no "vibration point". At all speeds and under all conditions it is remarkably easy to handle. One of the reasons for this is because it has pivotal steering, with ball thrust bearings on the king pins. Special design six-ply, high-speed balloon tires are standard.

The Chrysler Six is the dawn of a new day in conservation and application of power, utilization of space, unequaled economy combined with absolutely even, consistent performance.

No one engineering feature among the score or more responsible for results never before achieved can be justly emphasized as the real secret of such revolutionary achievements. Like the crankshaft, whose seven bearings, instead of the usual three or five, prevent destructive and costly engine vibration, there are a dozen features that effect unusual economies.

Still others, like the low center of gravity, the perfect weight distribution, the new practice of spring suspension and the Chrysler-Lockheed hydraulic four-wheel brakes, have much to do with the car's superiority in riding comfort, roadability, steering ease and safety. But the best way to understand these things is to ride in and drive the car.

God's thoughts:—I know the thoughts that I think toward you saith the Lord, thought of peace and not of evil. And ye shall seek me, and find me, when ye shall search for me with all your heart.—Jeremiah 29: 11, 13.

Prayer: We know, our Father, that Thy thoughts are not as our thoughts, nor Thy ways as our ways, for as the heavens are high above the earth, so are Thy ways higher than our ways, and Thy thoughts than our thoughts.

**Seed Corn**

The plan of the Jackson Township Farm Bureau to utilize the basement of the Jackson township school building to store seed corn during the winter is one that might be followed by the farmers of other townships with great profit.

It does not need to be emulated in every detail. The most important thing about what the Jackson township farmers propose to do is the co-operative storing of seed corn so that they will be certain to have satisfactory seed for the spring planting. It is not necessary to store it in a school building. Any building that will keep the seed in good condition is sufficient.

Not many sections of the country have the promise of the corn crop that this particular section has in which Rush county is located. There is certain to be a shortage of seed next spring and the farmers who have a surplus of good corn to be used for this purpose will be able to sell it at high prices.

That is not the only thing that recommends careful selection and storing of seed corn. Farmers who assure for themselves enough good

seed to plant next spring's crop will be doing something beneficial by insuring for themselves healthful seed so that they may get returns on their work and increase the county's yield of corn.

Co-operative storing of seed corn has been tried in Johnson county for several years past. An extra man has been employed to assist the county agent in the selection of seed corn. First the third story of a building in Franklin was used. Farmers have learned that the plan is so practical and profitable that the whole building will be utilized simply to save seed corn for next year.

This is one of the reasons why Johnson county excels in good corn and is able to win prizes at corn shows.

Corn growers profit by selling the seed at figures far above the market price. There is no reason why Rush county farmers can't do the same thing with profit to themselves and the whole county.

**The Boy's Part**

A woman speaking before a men's civic club recently said that the boys of the country were suffering from too much male domination—that they needed the womanly touch.

Every man will admit that they do need the influence of a mother, but that they are not being "dehumanized" by their elders.

The boy is the fellow who is going to carry on what the men of the present generation have begun or are beginning. He needs to be in close contact with men to get the masculine viewpoint—and he is not going to suffer if the man is inclined to interest himself in boys.

More and more intensely are men coming to realize that they can do more for the future by taking some interest in what the men of the future will be, than in any other way.

Men's organizations are devoting time to a study of the boy and trying to direct his activities and thoughts into channels that will develop him so that he will be able to take up the job where they leave off.

Men who stop to think have long since realized that it is wasted effort to build up a business based on an ideal if something is not done to instill the same thought in the mind of him who will carry on.

Man's work today is going to be judged, and praised or condemned by the boy of today, when he becomes a man.

Man's efforts, no matter how sincere and well meaning, are as snow before a hot sun unless he takes into account those who are to follow.

He—this boy of yours—is going to be the president, the senator, the statesman, the preacher, the teacher, the lawyer, the judge, the merchant. The fate of the nation and humanity is in his hands.

So it is well to pay him some attention for the measure of success he has with the tasks of the next generation depends on the training he has at the hands of the men of the present generation.

**HUNT'S DAILY LETTER**BY HARRY B. HUNT  
NEA Service Writer

WASHINGTON—Washington is a good deal surprised at the change in Secretary of the Treasury Mellon's attitude toward the Courzens investigation of his department.

Not so long ago he threatened to resign if the inquiry were pushed. He was so emphatic about it that President Coolidge himself demanded a stop to the "probes" the Senate was conducting. Now it's announced that he'll co-operate in this one—the very one that previously he was most particularly dead set against.

From the committee room comes the news that the investigators are getting their data in order and that Mellon is helping them. It is stated that the first witness will be called about Oct. 1.

ONE theory is that Mellon wants to know what's going on before he knows what's going on; that having failed to head the investigation off, his plan is to give a little direction to it.

He can't overshadow Courzens. Everybody who knows the latter feels sure of this.

But can't he out-manuever him? Courzens is not a first class investigator, like Senators Walsh and Wheeler.

He's fearless. His tenacity is something to wonder at. He knows what he wants and goes after it with indomitable resolution, but in matters of this sort he doesn't know exactly how to go it.

He proved this several months ago, when the present inquiry started. Handicapped by fellow-committeemen who didn't want him to discover anything, all he could do was to "flounder around," as he himself expressed it. He lacks the art or the experience to bring out the significant, the dramatic, the startling.

THEN again, there's another thing Secretary Mellon may have in mind. The committee aims to delve into

two subjects—income taxes and prohibition.

Poking into the income tax is what perhaps, Mellon especially objects to. Probably he doesn't care so much about prohibition. He never has been known as a dry, politically. The two doubtless can agree on that.

It's conceivable that Mellon, a banker, would be violently averse to having any disagreeable facts uncovered in the income tax department, which he's supposed to know all about, and not particularly averse to having them uncovered in connection with prohibition enforcement, which he's no specialist at.

Let there, a chance he's made up his mind the income tax department is investigation proof and doesn't care what happens to the prohibition unit. That's what politicians are wonderful.

INCOME taxation is a subject it's mighty hard to turn inside out, anyway.

Under the present law, passed shortly before Congress' last adjournment, congressional investigators are entitled to demand answers to questions concerning specific cases.

If they have their suspicions of some definite transaction, they can go to the bottom of it. But they can't dig up clues as they go along, and follow them here, there and everywhere. This limits their activities.

Prohibition, on the other hand, is wide open. A witness' only valid excuse for refusing to answer a question concerning dry law enforcement is that he might incriminate himself by doing so.

For the investigators' purposes, a witness might about as well incriminate himself as avail himself of that excuse.

So the indications are the inquiry will be rather tame so long as the investigators stick to income taxes but mighty snappy when they get to prohibition.

**Catarrh-- Unnecessary**

Chiropractic Health Talk No. 85

By H. V. McCully, D. C. Ph. C.

Catarrh is so prevalent throughout America that many of us have, or have had the impression that it is a necessary evil due to our climate. This impression is wrong, and the cause of much needless suffering.

Usually starting with a "cold" there is a thin watery discharge from the nostrils. This gradually thickens and it becomes difficult to keep the nasal passage open. At night it is almost impossible to breathe through the nostrils, and mouth breathing, which is dangerous because the air reaches the lungs without being properly heated and filtered of dust. This results in irritation of the bronchial passages, and further discomfort.

Then, if one has permitted the annoyance to reach this stage, it is when it is well to know that our chiropractic health method corrects the cause and removes the effect.

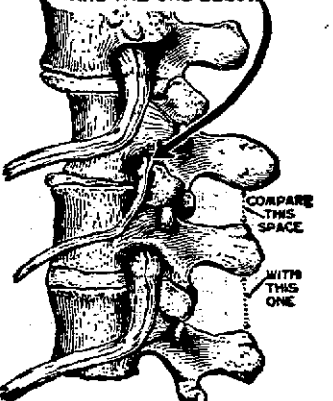

UNCLE BEN SAYS:

"What you do today, Nephew, is what gives you a tail holt on to-morrow."

**Catarrh Capitulates**

"From childhood I was troubled with Catarrh of the nose and throat, which gradually became worse. Many, patent catarrh balms and medical prescriptions were tried without results. My friends assured me that almost everyone suffered from Catarrh, due to the climate, and a cure was impossible. I have since learned how far from the truth they were. Chiropractic adjustments have worked wonders for me and made me feel like a new person." — Emma H. Kelly, Chiropractic Research Bureau Statement No. 16H.

## PIRATES PASS OUT OF RACE

Brooklyn is Only One Game Behind, But Closes Season With Two More Games

By HENRY L. FARRELL  
(U. P. Staff Correspondent)

New York, Sept. 25—Recalling infrequency of miracles in the national pastime since 1914, it now looks certain that the New York Giants and the Washington Senators will meet in the world series.

New York gamblers are offering their money that way. Odds are 7 to 10 the Giants and Senators will come through to the championship. Some even money also has been placed that the Giants will win the series.

Pittsburgh passed out of the National League race yesterday when the Pirates dropped their second straight game to the Giants and fell 3½ games behind the champions. Brooklyn is still in second place, trailing by one game.

The Giants have four more games to play and the Robins have only two. If the Giants win three out of four games they will clinch the pennant. Brooklyn probably will win their two remaining games and if the Giants lose a pair the two clubs will have to play off three games for the title.

Having been beaten twice by the Giants and with their best pitchers used, it is not likely the Buccaneers will be able to take the third game here today. The Giants have rested and primed Arthur Nehf their star southpaw, for the last shot and Nehf always has been like poison to Pittsburgh.

The Senators and Yankees won their games yesterday, remaining in the same positions, with the Yankees trailing by two full games. The American League clubs are all idle today. The Senators play four more games against the Boston Red Sox and the Yanks have four remaining with the Philadelphia Athletics.

If the Senators win only one of their remaining games the Yankees would have to sweep the four game series with the Athletics. It is improbable that the champions will be able to do that, as the Athletics are now playing good ball and it is just as unlikely that the Senators will drop three games to the Red Sox.

## U. S. Athletes Clean Up

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Sept. 25—That puffed chest and smile-wrinkled face your Uncle Sam is wearing at the shank of the summer sport season is not an indication that he is getting childish in his old age.

The old fellow has every reason to swell up and be proud of what his boys and girls accomplished in the international sport matches that crowded the 1924 program. Against strong international competition, Americans came out first in:

ATHLETICS  
POLO  
GOLF  
TENNIS  
ROWING  
SWIMMING  
BOXING  
RUGBY FOOTBALL

Against victories in eight lines of major sport, the United States had to admit defeat only in women's team tennis, skating, fencing and soccer football.

Quite a record! So good a record that no nation ever could beat it!

Most impressive of course was the sweep made by the American team in all the important classes of the Olympic games in Paris—track and field athletics, rowing, swimming, boxing, tennis and rugby football.

There were glorious victories scored on all kinds of fields but the outstanding event of the year, perhaps, was the triumph of the American rugby team in the Paris Olympic matches.

No such hand of Americans went against such heavy, natural handicaps in the way of experience, and no team ever went through such malicious antagonism from all sides to

Last Round Before Semi-Finals in Amateur Golf Championship

Merion Cricket Club, Philadelphia, Sept. 25—Four star matches are on the program today in the round before the semi-finals of the national amateur golf championship.

Two champions, Max Marston, Cummings, the intercollegiate title the defending champion, and Dexter holder will meet in the feature match of the day.

Bobby Jones, former national open champion, will play against Ruddy Knepper, former Princeton star.

George Von Elm, Pacific coast star, will play Eddie Driggs, New York, and Francis Quimet will meet his fellow Bostonian, Jess Guilford.

score one of the most brilliant and convincing victories of the year.

The American Olympic team finished first in the Paris track and field games with a better score than was made in winning the Antwerp games of 1920. The Americans made a higher point score and won more events against opposition that was expected to give them the greatest test of their lives.

Yesterday's Hero: Sad Sam Jones who blanked the Indians with a 2 to 0 game. Virgil Barnes tossed them by Pittsburgh in the second game of the series, the Giants winning 4 to 2. Both Pirate runs were homers by Smith.

Burleigh Grimes kept the Robins in the National League race by pitching his club to a 6 to 4 victory over Chicago.

Washington made a clean sweep of the White Sox series, winning the final game 6 to 3. The Senator's victory came in the sixth inning sport which netted three runs.

Boston took two games from Cincinnati, winning the first 7 to 6 and the second 5 to 3.

Flint Rehm, kid pitcher recently acquired by the Cards, won his first start when St. Louis bumped Philadelphia 9 to 4.

The reunion next year will be held at Riverside Park, Indianapolis, the fourth Sunday in August.

**Facts About Child-birth**

It has been proven conclusively that much of the suffering, pain and dread experienced during expectancy, as well as at child-birth is entirely unnecessary.

An eminent physician, Dr. J. H. Hahn, writes in this science, first produced the great remedy "Mother's Friend," which aids the muscles and tissues to expand more easily, during the constant readjustment, month after month, right up to the climax of child-birth.

"Mother's Friend" is applied externally. Three generations of expectant mothers have used it. "Pains disappeared in two days after using 'Mother's Friend,'" writes a user. "I owe my life to 'Mother's Friend,'" declared another. Use "Mother's Friend" as our mothers and grandmothers did, start today and experience the wonderful comfort it will give you.

**FREE BOOKLET**

Write Bradford Regulator Co., Dept. B-A, 25, Atlanta, Ga., for free booklet giving many facts every expectant mother should know. "Mother's Friend" is sold at all good drug stores everywhere.

**Striking Outfit**

ONLY a real Parisienne could take equal parts of plain and striped material and evolve anything so snappy as this sport outfit. The monogram on the very wide scarf is most striking and makes a perfect finish for the straitlaced coat. The dress beneath is a plain tube effect.

**WAS RELATED IN THIS CITY**

Mrs. Benjamin Simpson, Age 77, Dies at Home in Waldron

Word has been received in this city by relatives of the death of Mrs. Benjamin Simpson, aged 77 years, at her home in Waldron, following an illness of a complication of diseases. She was related in this city. Mrs. Elmer Griffith being a niece. She also had a brother, James Waggoner living in Orange township. Other survivors are two daughters, Mrs. Will McHaffey of Waldron and Mrs. Calvin Marshall of Greensburg, and two sisters.

The funeral services will be held Saturday afternoon at 1:30 o'clock at the late residence and burial will take place in the Diana cemetery.

**ANNUAL MIGRATION ON**

Indianapolis, Ind., Sept. 25—The annual migration against getting up cold morning to five furnaces is beginning to manifest itself here today. The annual fall migration to apartments is on. But the migration is slower this year than ordinarily, according to realtors. There are fewer vacant houses than usual.

The migration has built but a little affect on rent prices. People from rural districts come to town and occupy houses apartment seekers vacate.

Realtors declare there will be no substantial decreases in rent prices until building costs are reduced.

**Ambassador Has to Walk**

Soviet Russia's new ambassador to China, Lev Mikhailovitch Karakhan, was forced to leave his temporary "embassy" on foot and plod along, dress suit, stove-pipe hat, big gloves and all, in the dust and silt on his visit to the palace. The street was too narrow to permit his carriage to enter. A Chinese cameraman may be seen trotting along with him.

**Is It Easy for You to Select Shoes?**

For the majority of women that seems to be a tiresome task—that is to find shoes to meet every requirement, but we have changed this from a burden to a pleasure, mostly by our wise selection of lasts and styles. — "And enough of them to really FIT FEET."

Glance over the many styles shown here, get an idea of about what you would like, then let our expert shoe fitters, by careful analysis of your feet, help you determine what style is best adapted for your particular need.

WEDNESDAY NIGHT'S  
ATTENDANCE IS BIG

Large Crowd Present For Revival  
Services Being Conducted at the  
Church of God

SERMON BY EVANGELIST

A large crowd attended the revival at the Church of God, Wednesday night. A feature of the meeting was a solo by the pastor. The evangelist, L. F. R. H. delivered the message taking as his subject "The Bible Church." He spoke in part:

The church is compared as a house, a sheepfold, a family, a vineyard, and a kingdom. It is a spiritual house because it is made up of lively stones, and it has a sure foundation because it is built on Jesus and the law and order of it is holiness.

He warned them to be careful what they were building.

"If it was built on Christ, it would be a spiritual church because Christ was a spiritual rock. Christ is a door to the church and people are admitted by him by being converted. The door is always open and Jesus keeps a record of his children. He spoke of the ordinances which is baptism in the Lord's supper and feet washing, which is practiced by this church."

Many other interesting points were brought out. Services tonight at 7:30 o'clock with special singing.

ALL WOMEN  
WHO WORK

Should Know how this Worker was  
Made Strong and Well by Lydia E.  
Pinkham's Vegetable Compound

Zahl, N. Dakota. "I was nervous and weak and was not regular. I also had pains frequently. I was sickly for seven years and finally had a nervous breakdown following an operation. I am a dressmaker and milliner, and a lady I work for told me of Lydia E. Pinkham's Vegetable Compound. I am taking it and it has made me well and able to do my work again. I have even helped take care of a sick neighbor recently, so you can see how fit I am. I highly praise your medicine and you may use my letter as you see fit. I hope it will help some other woman."—Mrs. OLE NORD-LEIN, Box 23, Zahl, North Dakota.

Over 121,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

98 per cent. of these replies answer "Yes."

This means that 98 out of every 100 women taking this medicine for ailments for which it is recommended are benefited by it. For sale by all drug gists.

### Love Story at Castle

"Merry-Go-Round", the Universal Super-Jewel screen production at the Castle theatre, is a love story in every sense of the word.

It makes no difference what its length may be, or how big the cast, or how thrilling the spectacle scenes, it is a love story, sweet and compelling, with its tragic, bitter elements—realities of an unpleasant world—but with the whole drama softened as by the magic touch of some divine understanding of human love.

It tells of Vienna, the great pre-war days and the dark, dismal ones which came with the conclusion of peace. The lovers are Agnes, a little girl who is one of the slaves of the Prater, Vienna's Coney Island, and Count Franz. The latter naturally is quite unattainable for a peasant girl; at least, respectfully.

Mary Philbin, prophesied as one of the biggest feminine possibilities of the film future, is the girl. Norman Kerry is the man, and the balance of the cast includes George Hackathorne, Casare Graving, Edith Yorke, Lillian Sylvester, Anton Vaverka, Al Edmundson, Dorothy Wallace, Spotiswood Aitken, Sidney Bracy, George Seigmann, Dale Fuller and other most capable artists.

### Last Showing Today

Among the historic settings for "The Covered Wagon", a James Cruze picturization for Paramount of Emerson Hough's story of the wagon trains of 1848, at the Princess theatre, is old Fort Bridger—the oldest settlement in Wyoming. It was made a trading post in 1842 and lies on the middle branch of Black Forks of the Green River.

When first established Fort Bridger, was in territory belonging to Mexico and became a favorite fur trading establishment. In 1847 the Mormons migrated to Salt Lake Valley, and a new element was introduced. Then came the immigration to the gold fields of California and the mighty track to Oregon which former expeditions continued until several years later when the Union Pacific railroad was built. Bridger reaped a golden harvest and helped many an immigrant on his journey.

Not only the old post but Jim Bridger himself lives again in this superb film spectacle which was produced with a wealth of accurate detail and which depicts the coming of the families from the old starting point—Westport Landing, now Kansas City, Mo.—to the west.

No more fascinating period exists in American history. The trappers, the scouts, Indians, emigrants, gold-seekers are the most picturesque figures that can be found in the records of this country and the winning of the west marks the greatest epoch in the development of the United States.

J. Warren Kerrigan and Lois Wilson play the leading roles. Alan Hale is the villain. The cast generally is artistic and satisfying.

## BEST ON EARTH

"I had an ulcer on my ankle—had it 30 years and could not get it healed. For the last six years I had several doctors. I got one box of Peterson's ointment and it almost healed it and it was entirely healed before I had used the second one. I don't think there is a better remedy on 'earth.' Mrs. J. C. Henderson, 520 Sprague Street, Winston-Salem, N. C. 35 cents a box.

## You Pay No More for All Closed Car Comforts in the Coach

Hudson and Essex alone have the Coach. No other type and no other car gives "Closed Car Comforts at Open Car Cost." Everyone knows it represents highest closed car value. That is why it is the largest selling 6-cylinder closed car in the world.

Now it adds the proven superiority of balloon tires—greater riding ease, finer appearance, improved road steadiness, and almost doubled braking efficiency.

It marks another margin of advantage in a leadership that all acknowledge.
